

CUT YOUR LIGHTING BILL BY 40%

STELLAR
SUSTAINABLE LIGHTING

230+

LUMENS/WATT

110K

HOURLY LIFESPAN

80%

RECYCLED MATERIALS

ENERGY EFFICIENCY

Provides brighter lighting while using less power, achieving up to 230+ lumens per watt for maximum efficiency. Designed to make lighting industrial spaces brighter, safer, and more efficient.

DESIGN FLEXIBILITY

Features easy, retrofit installation, minimizing setup time and reducing labor costs. Adaptable to various warehouse layouts and heights for seamless integration.

DURABILITY & SDG IMPACT

Made from 80% recycled materials, with a 110,000 hour lifespan, reducing waste and maintenance needs. Engineered to withstand demanding industrial conditions. Supports UN SDG 7, 9, 12 & 13.

READY TO TRANSFORM YOUR WAREHOUSE LIGHTING?

Join clients like 4Roots Farm, The City of Orlando and leading facilities achieving 30-50% energy savings.

Let us design an energy saving solution for your facility with our Made in the USA warehouse lights.

STATE OF THE ART HARDWARE

X-Series (Core Product Line)

- Up to 230+ lumens per watt
- Parking Garage + Linear, Warehouse + Linear, High Bay (32ft) + Linear models
- Quick-connect installation, minimal labor
- 80% recycled materials
- 110,000 hour lifespan
- Circular economy design
- Made for demanding industrial environments

Super High Bay – SBH40

- Up to 47,350 lumens • 175-205W
- 233 lm/W effective
- Integrated wireless control + LoRaWAN gateway
- Motion sensors • Custom optics (aisle & speedway)
- Smart motion sensor ready
- Passive location ready

SENSORS

- AQi (air quality): VOC, VAC, Gases (ETH, CO2, etc)
- Temperature and Humidity
- Vibration, Motion
- Camera Vision Ai (detect water spills, safety risks)
- Agriculture: Water Temp, Water Ph, Soil Moisture, Etc.
- Machinery: Electrical Draw, Vibration, Temp, and more.

SOFTWARE: Stellar Command

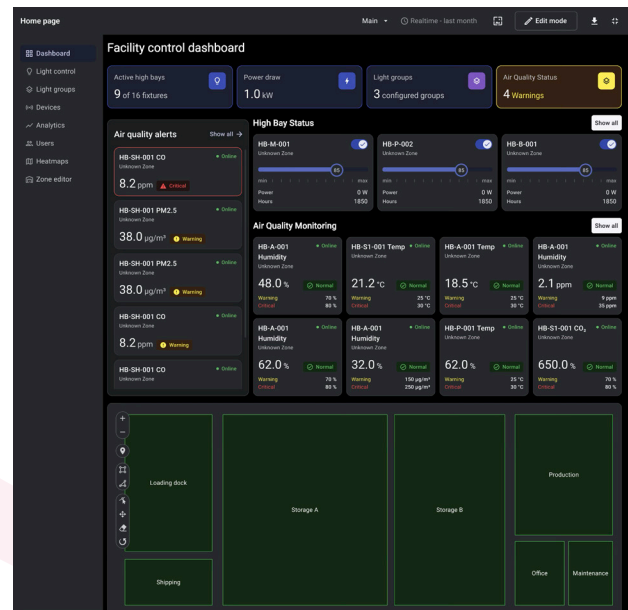

- Real-time Facility Control Dashboard
- Interactive map • live status • energy flow
- Per-device insights: power, runtime, temp
- Smart alerts & predictive maintenance
- Heatmaps: occupancy • energy • temperature
- Air quality monitoring (PM2.5, CO2, VOCs)
- Tenant portals: secure, customized views

DATA + DASHBOARD = Actionable Intelligence

Built for the people who actually work here. Get real-time visibility and control over your space — no extra apps, no extra hardware. Just smarter light.

See what matters to you:

- Live occupancy & space heatmaps — know exactly which zones are busy or available.
- AQI dashboards & instant alerts — breathe easier with real-time air quality in your area.
- Comfort optimization — temperature & humidity insights that help you feel better and work better.
- Your energy transparency — see exactly how much power your team is using and where you can save.

READY TO TRANSFORM YOUR PORTFOLIO?

Schedule a custom ROI analysis & live demo of Stellar Command.

We'll model your exact savings + revenue potential.
